

CITB – Health, Safety and Environment Tests

About the test

CITB is reviewing the Health, safety and environment (HS&E) test to ensure that it continues to contribute towards a qualified workforce with the right knowledge, skills and training.

All tests last for 45 minutes and have 50 questions. The test now includes two new question styles. The content of the questions will not change but a few questions may be presented in a different way. The test will still be made up of behavioural case studies and knowledge questions to check your understanding of how to behave and raise your awareness of health, safety and environmental issues.

All tests include the behavioural case study questions and the five core knowledge sections of:

- Legal and management
- Health and welfare
- General safety
- High risk activities
- Environment

Tests available include;

- Operative test
- Labourer test inc – level 1 award
- Specialist test
- Manager & Professionals test
- CPCS Renewal tests – 15 machine specific questions – fact sheets available on request for revision.

Should you have any questions/enquiries regarding this course, please fill out the form at the bottom of the Training page on the [Stobart Rail & Civils](#) website and we will endeavour to respond to you as soon as we can.
